Enclosure	Optional metal(1)		
Cooling	Convection		

(1) Models MRW 150KV, 151KV, 160KV, 161KV, 170KV, 171KV only.

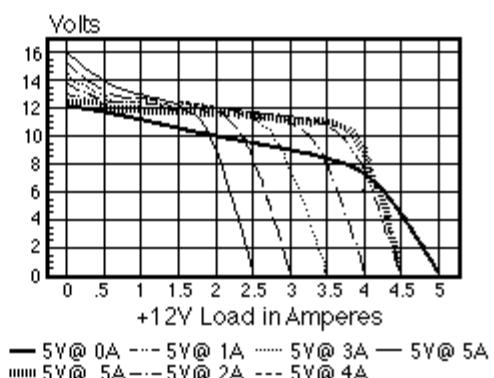

There are three outputs in most MRW power supplies. Outputs #1 and #2 of the MRW 150/151KV and 160/161KV can share the available power as illustrated by these curves. For MRW 170/171KV all three outputs share the power. The curves illustrate these possibilities.

NOTE: The maximum current from each output is limited to the tabulated value. The MRW 145KV has two outputs; sharing is not provided.
